

The Impact of Energy Efficiency on Wastewater Treatment Facilities

Join us on either 10/29 or 11/5 for interactive presentations about how energy efficiency can impact maintenance, costs and increase efficiency at wastewater treatment facilities in Illinois.

OCT 29
2019

Peoria County Farm Bureau, Peoria, IL
8am – 12pm

NOV 5
2019

Effingham County Illinois Extension Office, Effingham, IL
8am – 12pm

Operators can also receive up to **4 continuing education credits** towards their IEPA Wastewater Operator Certification by attending one workshop!

Operators will gain key insight on how to achieve energy reduction and cost-savings across their facilities. We will address how operators can:

- Overcome key implementation barriers to energy efficiency.
- Feature Illinois wastewater facilities who have identified or are implementing energy-saving opportunities.
- Review energy efficiency trends, available technical support and funding opportunities.
