# TEEX Infrastructure Protection Certificate Courses

Hosted at  
**DuPage Co. Office of Homeland Security and Emergency Mgmt.  
418 North County Farm Road  
Wheaton, IL 60187**

The Infrastructure Protection Certificate Program will enrich your knowledge of and skills in critical infrastructure security and resilience. You will gain a broad understanding of homeland security infrastructure protection doctrine through an in-depth examination of key concepts and practices in capabilities-based and community-focused planning, integrated risk management, private-public partnerships, and whole community resilience strategies. Once all four courses have been completed, participants must complete the [Infrastructure Protection Certificate Request](#) and return the form to the TEEX Law Enforcement and Security Training division to receive their Certificate.

## **Critical Infrastructure Security and Resilience Awareness**

**Wed, October 3, 2018 8:00 AM – 5:00 PM CDT**

**Registration: <https://www.eventbrite.com/e/critical-infrastructure-security-and-resilience-awareness-tickets-48414521136>**

This course will introduce participants to the key terms, policy, guidance, and preparedness efforts required to safeguard the Nation's critical infrastructure. Participants will review applicable policy and guidance, discuss the risk management framework, describe Federal critical infrastructure security and resilience and information sharing programs, and relate critical infrastructure programs to individual actions.

Primary focus will be placed on local preparedness efforts as they relate to the national approach to critical infrastructure security and resilience. An understanding of the national approach to critical infrastructure enables critical infrastructure stakeholders to address local planning within a common framework. Informed planning is consistent with and expands on nationally accepted emergency management standards as the basis for planning across the mission areas of prevention, protection, mitigation, response, and recovery.

*Prerequisites:* There are no prerequisites for this course.

## HOMELAND SECURITY AND EMERGENCY MANAGEMENT

630-682-7925  
Emergency: 630-682-7207

[www.dupageco.org/oem](http://www.dupageco.org/oem)

*Recommended:*

- IS-100.B: Introduction to the Incident Command System
- IS-700.A: National Incident Management System (NIMS) An Introduction
- AWR-160: WMD/Terrorism Awareness for Emergency Responders

## Jurisdictional Threat and Hazard Identification and Risk Assessment

**Wed, Nov 7, 2018, 8:00 AM – Thu, Nov 8, 2018, 5:00 PM CST**

**Registration: <https://www.eventbrite.com/e/jurisdictional-threat-and-hazard-identification-and-risk-assessment-tickets-48416517106>**

This course will prepare participants to conduct a Jurisdictional Threat and Hazard Identification and Risk Assessment (THIRA). Participants will identify threats and hazards of jurisdictional concern, give those threats and hazards context, establish capability targets, and determine how to apply the THIRA results. By using the THIRA process, stakeholders will develop a strategy to allocate resources and establish mitigation and preparedness activities. THIRA-informed planning is consistent with and expands on nationally accepted emergency management standards as the basis for planning across the mission areas of prevention, protection, mitigation, response, and recovery.

*Prerequisites:* There are no prerequisites for this course.

## Critical Asset Risk Management

**Tue, Dec 4, 2018, 8:00 AM – Wed, Dec 5, 2018, 5:00 PM CST**

**Registration: <https://www.eventbrite.com/e/critical-asset-risk-management-tickets-48417264341>**

The Critical Asset Risk Management course helps participants answer those questions by teaching critical components of risk management. Through a combination of lecture, facilitated discussion, and group activities, participants will learn how threats, vulnerabilities, and consequences determine risk, and are given an opportunity to practice the fundamentals of conducting vulnerability assessments by conducting on-site assessments of select local facilities.

Additionally they will identify potential mitigation measures associated with their findings and work together to develop and present a risk assessment report.

*Prerequisites:*

There are no prerequisites for this course.

## Advanced Critical Infrastructure Protection

**Tue, January 8, 2019 8:00 AM – 5:00 PM CST**

**Registration: <https://www.eventbrite.com/e/advanced-critical-infrastructure-protection-tickets-48417949390>**

In this course participants will enhance their skills to formulate considerations for the resiliency of jurisdictional assets leveraging cross-sector partnerships. These considerations will enhance the whole community's ability to manage the risk associated with critical infrastructure protection efforts. The course will implement the National Preparedness Goal by facilitating the development of Resiliency Action Plans, involving all jurisdictional critical infrastructure partners. Upon completion of this course, participants will be able to increase infrastructure owner/operator participation in jurisdictional planning, organizing, equipping, training, and exercising critical infrastructure protection efforts.

*Prerequisites:*

There are no prerequisites for this course.
