Fall 2019 Urban Forestry Basic Training

**October 9-10, 2019
John A Logan College
700 Logan College Rd
Carterville, IL 62918**

Fee: \$25 (1 day)/\$30 (2 days)

What is URBAN FORESTRY BASIC TRAINING?

A two day, hands-on instruction in basic forestry skills. Our expert-led sessions include planting, pruning, biology, providing proper tree care, and avoiding tree damage during construction with a second optional day focused entirely on chainsaws.

Who should sign up?

Do you maintain streets, utilities, or infrastructure around trees? Have you ever had to plant or prune trees, but are unsure of best forestry practices? Do you have trouble answering clients' or residents' questions about trees? This training provides forestry basics for those who need more education in tree selection, planting, and care to excel in their professions.

For more information, visit
